

Tecno 65 is the ideal solution for organizing small and medium scale kitchens in restaurants, snack bars, fast food outlets, pizza parlours, spaghetti houses, etc. Some of its elements can even be integrated with canteen kitchens, whatever their nature and size, because Tecno 65 is a very wide and flexible range, modular both horizontally and vertically, on base units designed to accommodate a range of accessories. Tecno 65 is also hard-wearing, easy to install and clean and safe thanks to conformity with the strictest international standards. This modular range incorporates all the latest and most innovative design and functional solutions so as to meet every possible demand in terms of cooking and the rational organisation of work in the kitchen. High heating power, fan ovens also extra wide versions (GN 1/1), fry-tops both in polished chrome and a special metal compound, pasta cookers, highly efficient infrared electric plates with pyroceramic top, braising pans with lift-out pan, fryers with "cold zones", fanned chilled base elements, are only some of the strong points of this top-of-the-market range.

TECNO65
